DD/ICS

FYI: I found this on my desk when I returned to the office
this afternoon (Thursday). General Stilwell had
departed.

I talked to Bob Gates this morning to ensure common understanding of what was to be done to finalize the report. I learned that, in general, what I had discussed with the Director and what the Director passed on to Bob matched.

Bob's main points:

1. Soften, shorten the critical needs. (Section V)
2. Expand Section IV to, in effect, go back to 1982 and provide several pages on accomplishments. (As I see it this would delete the cross-reference to earlier reports and pick up much of what was included in the interim report to the SSCI in February *And in the study Section IV*)
3. Change management section to stay with the SIG-I as currently configured.
4. Have a qualified editor to give document final scrub for flow, etc. (He said you had such an individual.)
5. Finally, Bob has no problem with length of report as it now stands. Indeed, per 2. above, feels it can be lengthened a bit if necessary.

He applauded my willingness to assist, as desired.

Dick P. Sullivan
